

PARAFORMALDEHYDE

Paraformaldehyde	96%, 91%
Chemical Name	Paraformaldehyde
EINECS-No.	200-001-8
CAS-No.	30525-89-4
UN-No.	2213
Mol. Formula	(CH ₂ O) _n

PHYSICAL & CHEMICAL PROPERTIES

Free flowing white granules or powder	
Chemical Formula	(CH ₂ O) _n
Melting Range	120 - 170° C
Bulk Density	0.6 - 0.8 g/cc
True Particle Density	1.4 g/cc
Vapor Pressure at 20° C	< 3 mbar
Flash Point, Closed Cup	70° C
Ignition Temperature	300° C
Explosion Limits (%vol.)	26846
Solubility in Water at 20° C	Sparingly soluble

PACKAGING

1. Paper Bags: 25 Kg net, 4-ply moisture proof paper bags, with interior polyethylene layer
2. Big-bags: Polyethylene raffia big-bags, with interior polyethylene layer. Wide range of weights, to fit client needs
3. 125 kg. steel drums

STORAGE

Keep in the original packaging, in a well-ventilated location, do not expose to water and temperature above 35°C.
